

May 29, 2020

Dear family and friends,

I hope this finds you all well and safe.

During this final week of the Easter season, we thank God for the blessing of having the entire home (including Little Sisters, staff and Residents) test negative for Covid-19. We say Alleluia and thanks be to God!

Despite the good news, please understand that at this time our visitor restrictions remain the same. We still need to follow DPH and the CDC guidelines even though we are all well. Our opening up is part of the last phase for California's easing of the shelter in place. We know this must be frustrating as it has already been such a long time since you have seen your family and friends. But know that all of your patience and cooperation is paying off. We do believe that there is a light at the end of the tunnel.

In addition, we would like to congratulate everyone — Sisters, nursing staff, dietary staff, maintenance staff, housekeeping/laundry staff, administrative staff and the receptionists — for their untiring dedication and care in keeping the Home virus and infection free. Know that we will continue with the same level of diligent care going forward. I am so proud of the amazing team of people whose effort resulted in such a good result in the Home's testing for Covid-19! Please join me in thanking them for all their hard work.

Thanks again for all your donations and prayers over the past months. Your responses to all our requests have been overwhelmingly generous. This week, if anyone would like to help, we are in need of adult incontinent diapers unisex (not pull-ups), size L and XL.

Happy Feast of Pentecost!

God Bless,

Mother Theresa

P.S. Please be advised that this is going to be the last paper mail you will be receiving from us. Should you want to continue receiving updates, please can : call in your e-mail address (415-7516514 ext. 127), send an e-mail to rasanfran@littlesistersoftheporr.org or just visit our website at <http://www.littlesistersofthepoorsanfrancisco.org/important-notice/> .
