

December 17, 2020

Dear Family and Friends,

This 2<sup>nd</sup> letter this week might come as a surprise. I am writing to give you an update of this week's staff testing results. Seventy-eight (78) staff were tested last Monday; 76 came back negative and 2 came back positive. Following the San Francisco Department of Public Health guideline, and since the two caregivers who tested positive work in the nursing care units, Residents in both nursing halls (orange and gold halls) were tested; we are waiting for the test results. We will be sending you more information most likely early next week.

One (1) Resident in the green hall also tested positive. This RCF Resident is in strict quarantine now.

Be assured that we strictly follow all the guidelines set by SFDPH and the CDC for screening infection signs and symptoms. With God's help, we will continue to do our best to keep everyone safe. Pray with us that the surge in San Francisco will soon be contained.

If you have any questions or concerns, please do not hesitate to email or call me.

Please continue keeping us in your prayers.

God bless you,

*Mother Thuer*
