

January 8, 2021

Dear Family and Friends,

Happy New Year to you all! May this be a healthier new year for all of us.

The good news is, almost all of the Residents who had contracted the corona virus are doing well; but unfortunately, one of our very frail residents passed away. May he rest in peace.

This week's testing revealed one (1) positive staff member. The usual precautions are being taken. To help us keep our Home COVID-19 infection free as possible, the SF Department of Public Health will now be testing the staff and the residents twice weekly. Testing will be on Tuesdays and Fridays starting on January 12, 2021.

We are looking forward to January 16, 2021, at which time, the COVID-19 vaccine will be administered to Residents and staff of St. Anne's Home.

Our fervent prayer is that you and your family remain well and safe.

Thank you and God bless you,

*Mother Thuer*
