

February 5, 2021

Dear Family and Friends,

I hope you and your family are well and safe.

After three (3) consecutive weeks of having no COVID-19 cases here at the Home, one (1) staff member tested positive this week. Because this employee is a caregiver and following the San Francisco Department of Public Health guideline, all Residents on Sacred Heart and Lourdes hall were tested; we are waiting for results. Please continue to pray with us for all test results to come back negative.

Tomorrow, February 6, 2021, Walgreens will be setting up clinic here to administer the 2nd dose of the COVID-19 vaccine to residents and staff. A few Residents and staff who were not able to get the first dose last January 16 will get theirs tomorrow as well.

Wishing you and your family a happy Super Bowl Sunday!

Thank you and God bless you,

Mother Thuer
